These proposed minute orders contain information concerning the receipt of bids for highway improvement contracts. The department may reschedule receipt of bids for those projects where the commission rejects all bids. Those bids accepted by the commission will result in conditional contract awards to the low bidders. Contract award conditions may involve securing funding from other sources, the contractor's ability to satisfy federal DBE subcontracting requirements, or other requirements as outlined in the project bid proposal.

a. **Highway Improvement and Other Transportation Facilities**

(see attached itemized list) (MO)

b. **Routine Maintenance**

The study evaluated the feasibility of improving the corridor to an interstate facility, including the ability of the corridor to facilitate the movement of agricultural and energy products to markets, and international trade. The study also examined cost estimates and the economic impact of the interstate upgrade. The study outlines the Ports-to-Plains advisory committee project recommendations and implementation plan to upgrade the corridor to an interstate facility. No commission action is required for this agenda item.

Gregg County - City of White Oak - Consider final approval of a request from the City of White Oak for a State Infrastructure Bank loan in the amount of up to \$2,060,000 to pay for the costs of utility relocation, along with a contribution to the department to pay for the costs of right of way acquisition necessary for a non-tolled state highway improvement project to widen FM 2275 in Gregg County, Texas (MO)

The City of White Oak (City) will secure the loan with a pledge of utility revenues. The loan will be used to pay the City's costs associated with the utility relocation, along with the City's contribution to the department for right of way acquisition costs necessary for a non-tolled state highway improvement project to widen FM 2275 in Gregg County, Texas.

In accordance with Section 501(c) of the trust indenture, the commission covenants that for the first five full years of operation of the system, the commission will provide to the trustee a report showing the traffic and revenue of the system for the previous quarter. The commission may discontinue the reports because the revenues for the previous two years have been sufficient to meet the rate covenant; however, the commission has not exercised its option to discontinue the reports.
